Whiplash Traumatology & Treatment: Injury Mechanisms, Neurophysiology, Pain, Special Testing and Treatment

www.TorontoPainDoctor.com

Now Academically Endorsed by McMaster Medical School

Medically Accredited for Continuing Education in North American by Michigan State University Medical School

The symposium emphasis is on clinical reasoning, decision making and research but with the added dimension of case management and medical legal work, through specific training in:

- Occupant kinematics
- Injury biomechanics
- Crash forensics Injury Analysis
- Neurophysiological special testing
- Special imaging
- Chronic Pain Management
- Concussion Assessment and Diagnosis
- Multidisciplinary best practice treatment methods
- Medicolegal concepts.
